P R E F A C E

The Census of Population, Households and Dwellings was carried out from the 1st to the 15th of November 2002. The data in the Census forms have been recorded according to the situation on 31st October 2002 at 24:00 hrs, namely at midnight between 31st of October and 1st of November 2002.

The Census was carried out according to the Law on Census of Population, Households and Dwellings in the Republic of Macedonia, 2001 ("Official Gazette of the Republic of Macedonia" No 16/2001 and changes and supplements to this Law published in the "Official Gazette of the Republic of Macedonia" No 37/2001, 70/2001 and 43/2002).

The methodology, definitions and classifications for this Census are completely harmonized with the Law on Census and the Recommendations for Censuses on Population Households and Dwellings prepared by the United Nations and the Statistical Service of the European Union - EUROSTAT. This ensures the international comparison of the Census data.

The State Statistical Office has announced the first final results of the Census on Population, Households and Dwellings 2002, on 1st of December 2003. According to the Census Law, the State Statistical Office is obligated till the end of June 2004, to publish all 12 planned publications for the Census 2002.

This is the seventh publication (Book VII, Census 2002) which contains 5 tables with data for the Total Population present in the country: persons that are performing an activity according to the industry. The data in the tables are presented on municipality level, according to the existing territorial distribution of the Republic of Macedonia.

We expect that, data contained in this publication and in the following publications will satisfy the most of the users needs for our data. Certainly, for each user who will need another data from the Census, that are not included in the designed publications, the State Statistical Office will make all necessary data processing to satisfy these requests.

METHODOLOGICAL EXPLANATIONS

1. Time of the Census

The Census of Population, Households and Dwellings in the Republic of Macedonia was carried out in the period from 1st to 15th of November 2002. The data in the Census forms have been recorded with the situation as of 31st of October 2002 at 24:00 hrs, namely on midnight between 31st of October and 1st of November 2002. This date is Census reference date - "Critical moment of the Census".

2. Method of enumeration

The Census was carried out by an interview from trained authorized persons (enumerators) with recording the data in the printed forms.

The basic Census forms used in the Census are:

- Enumeration form (P-1 form)

for each person - unit of the Census

- Questionnaire for household and dwelling (P-2 form)

for each enumerated household and dwelling - unit of the Census

- Control form (P-4 form)

for evidence of all enumerated units

3. Units covered by the Census

The Census of Population, Households and Dwellings, 2002 covered the following units:

-Persons (individuals)

1. Persons that have place of usual residence in the Republic of Macedonia, regardless of whether at the time of the Census they are present at their place of usual residence or elsewhere in the Republic of Macedonia;

2. Foreigners that have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but which have a place of usual residence outside the Republic of Macedonia;

3. Persons that have place of usual residence in the Republic of Macedonia, who at the time of the Census, and for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

4. Persons that have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of Macedonia, the United Nations and its organizations, representative offices or being representatives of the Chamber of Commerce abroad, business offices abroad, military representatives of the Army of the Republic of Macedonia, and citizens engaged on the bases of international, technical and other kinds of co-operation, education, as well as the members of their households who are staying abroad with the aforesaid persons;

5. Persons that have place of usual residence in the Republic of Macedonia, but are not in possession of the documents pursuant to Article 39, item 1 from the Census Law, if they present the documents stated with Article 39 item 3 from the Census Law;

6. Foreigners with acknowledged status of refugee that at the time of the Census are present in the Republic of Macedonia;

7. Foreigners with acknowledged status of a temporal humanitarian protection that at the time of the Census are present in the Republic of Macedonia;

8. Other persons which at the time of the Census are present on the territory of the Republic of Macedonia, except the persons mentioned in the previous two categories.

PERSONS COVERED WITH THE ABOVEMENTIONED EIGHT CATEGORIES CONSIST THE ENUMERATED POPULATION IN THE REPUBLIC OF MACEDONIA.

PERSONS COVERED WITH THE ABOVEMENTIONED CATEGORIES FROM ONE TO FIVE CONSIST THE TOTAL POPULATION IN THE REPUBLIC OF MACEDONIA.

-Households (households of the persons being Census units) and

-Dwellings (dwellings in a narrow sense of word, inhabited business premises, improvised living quarters and collective living quarters)

4. Place of enumeration

The place of enumeration is the place of usual residence of the persons - Census units. As a rule, persons with a place of usual residence in the Republic of Macedonia and which at the time of the Census are absent abroad up to one year are enumerated abroad, at the diplomatic and consular representative offices. The Census abroad was carried out by Ministry of Foreign Affairs with co-operation with the diplomatic and consular representatives.

In aim of harmonization and adjustment the Census as statistical operation towards the standards of European and World Statistics, in the Census 2002 are done certain changes that are in relation of defining of the Census units and calculation of the category total population. The enumeration of the census units was conducted by **place of usual residence**, and the persons with a place of usual residence in the Republic of Macedonia working abroad more than twelve months, as well as the members of their households, were not Census units.

These changes do not allow a complete comparability of the data from this Census with the data from the previous censuses.

5. Place of usual residence

Place of usual residence is the geographic place where the enumerated person usually resides. This may be the same as or different from the place where the person actually was at the time of the Census, or it may be his/hers legal residence (according to the personal document). A person's place of usual residence understands the place where he/she spends most of his/her daily or night rest.

In this publication the data from the Census 2002 are presented in five tables:

1. Total population present in the country, at 15 years of age and over, according to five-years age groups: persons that are performing an activity by industry

Total population in the country

Total population in the country is the **total population** in the Republic of Macedonia minus the population absent abroad for less than one year working for foreign employer or working independently as well as the members of their households that are staying together with them.

Economic activity

The data of the economic activity refer to the week that precedes the Census.

According to economic activity, the population is grouped on two basic groups:

- active population and
- non- active population

The active population consists of persons at 15 years of age and over:

- **persons that are performing an activity** - persons that perform an activity as employees or independently

- **persons that are not performing an activity** - unemployed persons, persons that are looking for a job, as well as persons that have interrupted their employment because of bankrupt of employer/own enterprise, because of serving in military service, serving a sentence in a prison or because of seasonal character of the work.

An employment, according to the international standards, means every economic activity for salary or other type of compensation, in duration of at least one hour in the reference week.

It means that the employment doesn't mean only the formal employment but also the other types of work with which the living resources can be obtained.

Table 1. Total population present in the country, at 15 years of age and over, according to five-years age groups: persons that are performing an activity, by industry

In the Table 1 are presented the data of the total population in the country at 15 years of age and over according to five-years age groups - persons that are performing an activity (employed persons) by industry

Industry

Industry (on business entity) is combination between the sources as equipment, labour, technique of production, informative net or products (goods and services).

The assessment of industry on the business entities has been performing with the National Classification of Industry. The structure of the classification is completely harmonized with the structure and contents of the European Classification of industry NACE Rev .1.

The National Classification of industry has 17 sectors, 31 undersectors, 60 sections, 222 groups, 502 classes and 602 underclasses.

In the Table 1 the data of the industry are classified by sectors.

The data of age are presented by five years age groups.

Table 2. Total population in the country at 15 years of age and over: persons that are performing an activity according to the occupation and industry

In the Table 2 are presented the data of the total population in the country -persons that are performing an activity according to occupation and industry.

Occupation

The occupation is summary of works and working duties which are according to their content and type organizational and technological so similar and connected that it can perform one performer who has appropriate abilities, titles and policies.

For active persons that are performing an occupation, the occupation is determined according to the type of work that is conducted by the person, and not according to the education and training which that person has.

An occupation of persons is determined according to the usual duties that the persons have performed at the reference week, and for persons that have been absent from work, an occupation is determined according to works and working duties which are usually perform if they would be at work.

If the persons have performed more types of works at the reference week, an occupation is determined according to the work that is performed for the largest part of working time.

During the data processing, occupations were grouped according to National Classification of Occupations which structure is harmonized with the structure of the ISCO 88. The National Classification is consists of:

10 main groups

28 undergroups

115 secondary groups

403 single groups

In the Table 2 the data are classified according to the main groups of occupation.

The data of the industry are classified by sectors.

Table 3. Total population present in the country at age 15 years and over: persons that are performing an activity according to the educational attainment and by industry

In the Table 3 are presented the data of the total population in the country at 15 years of age and over, persons that are performing an activity (employed persons) according to educational attainment and by industry.

The highest completed school means the type of school where the person has acquired the highest level of education. No difference should be made between acquiring education at a regular school or a school that replaces the regular one (example: school for education of adults), respectively acquired by exams taken in a regular school or some program of abbreviated education.

The data of the industry are classified by sectors.

Table 4. Total population present in the country, at age 15 years and over: persons that are performing an activity according to the ethnic affiliation and by industry

In the Table 4 are presented the data of the total population in the country at 15 years of age and over, persons that are performing an activity according to declaration by ethnic affiliation and by industry.

In accordance with the Census Law, the data on the ethnic affiliation are the results of the free declaration by the population in reply to this question. For this purpose in the Census questionnaire an empty line was foreseen for the question of ethnic affiliation. For children under 15 years of age, a response to this question was given by one of the parents, the adoptive parent or guardian. Neither the enumerator nor anybody else could not in any way influence the enumerated person to state his ethnic affiliation against his own will. In accordance with the Census Law, a person could, for private reasons, refrain from declaring his/her ethnic affiliation.

The data of the industry are classified by sectors.

Table 5. Total population present in the country at age 15 years and over: persons that are performing an activity according to the status in employment and by industry

In the Table 5 are presented the data of the total population in the country at 15 years of age and over, persons that are performing an activity according to the status in employment and by industry.

Status in employment

Status in employment refers to type of explicit or implicit contract for employment with other persons or organizations that the person has got for its work. The basic criteria used in define the groups of classification are the types of economic risk, an element from which depends the intensity of connection between the person and work, and the type of authority in the enterprise and on the other employed.

According to status in employment, economically active population is classifying on:
